WELCOME TO AIDS 2014

Dear Colleagues,

The convening of the 20th International AIDS Conference (AIDS 2014) in Melbourne, Australia, in July 2014 represents a tremendous opportunity to highlight the diverse nature of the Asia Pacific region's HIV epidemic and the unique responses to it. Gathering in Melbourne, we will work together to strengthen our efforts across all regions and around the world, building on the momentum of recent scientific advances and the momentum from AIDS 2012.

The biennial International AIDS Conference is the premier gathering for those working in the field of HIV, as well as policymakers, people living with HIV and others committed to ending the epidemic. It will be a tremendous opportunity for researchers from around the world to share the latest scientific advances in the field, learn from one another's expertise, and develop strategies for advancing all facets of our collective efforts to treat and prevent HIV.
